PROFESSIONAL SUMMARY

Salesforce Developer with 3+ years of experience designing scalable CRM solutions using Apex, LWC, and integrations. Proven expertise in async processing, loyalty management systems, and high-volume data handling (1M+ records). Strong foundation in object-oriented programming, design patterns, and performance optimization, with a focus on secure and enterprise-grade architecture.

TECHNICAL SKILLS

Salesforce Development: Apex, LWC, Triggers, Flows, SOQL, SOSL, Platform Events, Batch Apex, Queueable Apex, Future Methods

Architecture & Concepts: Object-Oriented Programming (OOP), Design Patterns (Strategy Pattern), Data Modeling, Security Architecture

Integrations: REST APIs, SSO (SAML/OAuth), WhatsApp Business API, JSON Processing

Salesforce Platform: Loyalty Management, Data Processing Engine (DPE), Experience Cloud, Einstein Bot, Approval Processes

Admin & Security: Profiles, Permission Sets, OWD, Role Hierarchy, Sharing Rules, Custom Metadata

Tools & Technologies: Git, VS Code, Postman, Salesforce CLI, Workbench, Data Loader, JIRA

CERTIFICATIONS

Salesforce Platform Developer I · Salesforce Administrator · Service Cloud Consultant · Salesforce AI Associate · AWS Cloud Practitioner

PROFESSIONAL EXPERIENCE

Salesforce Backend Developer | OSF Digital

Sep 2025 – Present

Summit-Level Salesforce Partner · Loyalty Management · Golf Transformation Project

- Engineered enterprise-scale data migration using Batch Apex with custom transformation logic, processing 1M+ records with zero data loss
- Designed least-privilege security architecture using Profiles, Permission Sets, and Sharing Rules, ensuring secure multi-business unit access
- Built automated User Access Provisioning (UAP) system using Flows and Apex, reducing manual admin effort by 35%

Loyalty Management System (Salesforce Loyalty Cloud):

- Designed and implemented end-to-end loyalty tier management supporting upgrades, downgrades, and annual resets
- Developed batch processing framework ensuring transactional consistency across 10K+ member records
- Applied Strategy Pattern with Custom Metadata-driven configuration for scalable business rule management
- Enforced Data Processing Engine (DPE) solutions, reducing development effort and enabling admin-driven logic updates
- Resolved complex flow consistency issues and improved reliability of tier transition processes
- Executed concurrency-safe logic using SELECT FOR UPDATE, preventing race conditions in high-volume processing

Salesforce Developer | Wipro Technologies

Mar 2023 – Aug 2025

Client: The Times of India · LWC, Apex, Batch Apex, Flows, SSO, Experience Cloud, WhatsApp API, Einstein Bot

- Built Einstein AI chatbot, improving response time by 40% and achieving 90% customer satisfaction
- Developed scalable notification framework (SMS, WhatsApp, Email) serving 100K+ users with retry logic
- Automated 10+ business processes using Apex and Flows, reducing manual effort by 40%
- Delivered 15+ production features with zero downtime across deployments
- Led domain migration and SSO (SAML) implementation for customer portal with no service disruption
- Integrated WhatsApp Business API for re-engagement campaigns, increasing renewal rate by 28%
- Optimized data storage and performance, improving query speed by 20% and reducing storage by 25%

EDUCATION

B. Tech in Computer Science & Engineering

2018 – 2022

Dr. B.C. Roy Engineering College, Durgapur, West Bengal · DGPA: 8.73 / 10

ADDITIONAL

Awards: Best Performer at Wipro (2×) · Multiple Client Appreciation Awards

Open to Relocation: Kolkata · Pune · Bangalore · Hyderabad · Noida · Remote
