PROFESSIONAL EXPERIENCE

OSF Digital

Sep 2025 – Present

Salesforce Developer

Remote

- Engineered enterprise data migration using Batch Apex with custom field mapping, transformation logic, and rollback support — 1M+ records processed with zero data loss.
- Architected least-privilege security model using Profiles, Permission Sets, OWD, Role Hierarchy, and Sharing Rules to enforce strict data visibility across business units.
- Built UAP automation (Flows + Apex) to auto-grant/revoke Permission Sets on onboarding, offboarding, and role changes — eliminating manual access requests and reducing admin overhead by 35%.

Wipro Technologies

Mar 2023 – Aug 2025

Salesforce Developer

Pune / Kolkata

Client: BCCL – The Times of India | Tech Stack: LWC, Apex, Batch Apex, Flows, SSO, Experience Cloud, WhatsApp API, Einstein Bot

- Built Einstein AI Chatbot for customer self-service — reduced support response time by 40% and achieved 90% positive customer satisfaction.
- Developed Batch Apex notification framework (SMS, WhatsApp, email) with retry logic and delivery tracking, serving 100K+ subscribers reliably.
- Automated 10+ business processes via Flows and Apex Triggers — 40% reduction in manual effort; deployed 15+ features across environments with 0% production downtime.
- Led LIVE domain migration and SSO (SAML) integration for customer portal with zero service disruption, coordinating across infrastructure, dev, and QA teams.
- Integrated WhatsApp Business API for targeted re-engagement campaigns — improved subscription renewal rate by 28% and reduced churn in the media subscriber base.
- Implemented Apex-based data archiving logic — achieved 20% query performance improvement and 25% reduction in active data storage costs.
